2. Request for Estimate  
from ICIS

a. The Chairman read a letter, dated 17 May 1955, from the Chairman, Interdepartmental Committee on Internal Security, copies of which were later circulated to the members, requesting that an estimate be prepared on "the probability that an attempt will be made by the USSR to effect the clandestine introduction into the US of nuclear weapons or their nuclear components by means of entries and shipments covered by diplomatic immunity before an all out attack on this country by nuclear weapons delivered either by aircraft or missiles." The request stated that there "should be an estimate of current probabilities as well as an estimate of probabilities based upon anticipated changes in USSR capabilities over the next several years." The estimate is desired by the ICIS within one month.

b. It was agreed to undertake this special estimate and a representatives meeting, at which oral contributions will be made, was called for 1400, 27 May.

c. The AEC member stated that his agency could undertake to provide a presentation in connection with the preparation of the estimate.

4. Communist Prospects in  
Malaya and British Borneo  
(NIE 64-55)

Approved as amended subject to footnotes by the Joint Staff member to certain paragraphs.

5. IAC Participation in the  
Dispersal Exercise on  
15, 16, 17 June

25X1      a. [ ] Chairman of the ad hoc committee set up to consider this matter (IAC-M-197), reported that only the State and CIA representatives to the committee believed that the IAC members or their deputies should be assembled during the projected exercise. The others did not believe that the IAC would be called upon to function during the first three days of an emergency and that, therefore, the exercise was unrealistic. They were all in agreement that, if an actual emergency arose during this exercise, the IAC should convene and provisions should be made therefor.

b. The members agreed that, in the event of an emergency arising during the exercise, the IAC should be convened in Washington.

c. There ensued a discussion of the proper function of the IAC in a real emergency and of the nature of its participation, if any, in the proposed exercise. A majority of the members did not believe that the IAC should participate in the planned exercise. A majority, however, favored such participation if the NSC plans to take part. The Chairman noted that the DCI may consider that he must proceed with IAC participation, inviting the members to attend, whether the NSC takes part or not.

d. The matter was then referred to the ad hoc committee for detailed planning on the assumption that the IAC will participate in the drill.

Adjournment: 1215
